From the Desk of the President Joe Cox

Hello FWC!

Thanks to all of those that came out to our Annual Shrimp Boil! A great time was had by all, and it was such a great day with blue skies and the band playing into the night. Special thanks to all of those for the hard work that went into the putting on another successful party.

I cannot believe that it is already May and summer time is back. It seems like just the other day summer was winding down and our ASHRAE Year was getting started. I cannot express how much I appreciate all of the support this year. I think we had some great meetings and good to see some new and old faces.

We are looking forward to our last meeting of the year coming up Tuesday, May 17th. This is Past President's night and we have a large group of Past President's that have RSVP'ed. We will have Dr. Yogi Goswami, a Chemical Engineering Professor at USF speaking to us about "An innovative new Photo-electrochemical (PEC) technology for indoor air quality". We are looking forward to a great turnout and seeing you there. Please RSVP if you have not already.

Thanks again and look forward to seeing you all soon!

Research Promotion currently at 53.4% of goal...see Page 4

May Dinner Meeting and Past-President's Night

Calendar Year: 2015/2016

Final Dinner Meeting

“An Innovative New Photo-electrochemical (PEC) Technology for Indoor Air Quality”

Meeting Summary:

Our speaker this month is Dr. Yogi Goswami, Ph.D., P.E., ASHRAE Life Member. Dr. Goswami is a Distinguished Professor in the Chemical Engineering Department at the University of South Florida and last year attained Fellowship Distinction Status with ASHRAE for his continuing educational contributions to our industry. His presentation will focus on his research on indoor air quality utilizing new photo-electrochemical technologies. Dr. Goswami has a number of patents and authored dozens of research papers on a wide range of chemical and energy efficiency topics.

1 CE course hour provided!

When?

Tuesday, May 17, 2016
5-6 PM Cocktail Hour
6-8 PM Dinner Meeting

Where?

Holiday Inn Westshore
700 North Westshore Boulevard
Tampa, FL 33609

Cost?

\$35 thru Paypal (\$40 day of Event)

RSVP HERE

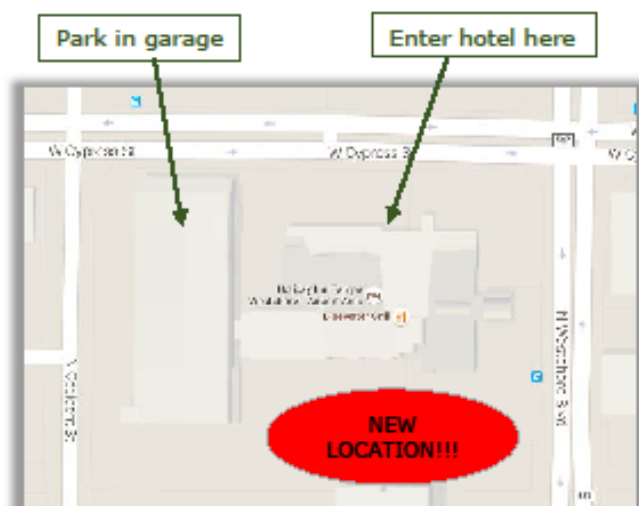

or at

www.ashrae-fwc.org/ashrae-events/

Dr. Yogi Goswami, Ph.D., P.E.
USF Distinguished Professor

Membership Promotion

Submitted by Leon Boe

If you are, or know someone that is a prospective new member, the Affiliate grade of membership may be for you!

This program is for individuals at or under the age of 30 that are new to ASHRAE (not previously a Student or Associate member). OR for individuals who have been honorably discharged from the Military within the past 5 years. These members will receive a discounted rate as follows:

- \$54 for the first year
- \$74 for the second year
- \$95 for the third year

Participants in this program still receive most of the benefits of Associate Membership (except the ASHRAE Handbook) but at a considerably discounted rate (Current Associate Member dues are \$190 per year). Information can be found at: <http://www.ashrae.org/membership--conferences/student-zone/membership-and-meetings/affiliate-member-grade>

If you have any questions, please contact me at: 813-728-9257, or leon@glspies.com

Research Promotion Submitted by Ike Crimm

Many of you might not know, but ASHRAE raises millions of dollars every year that is used for research projects. The result of these projects creates the standards and guidelines that we all use every day. Each and every dollar raised goes 100% toward research. I am tasked this year with raising \$23,000 here locally for research. **I NEED YOUR HELP!**

Over the last few years we have been working closely with the ASHRAE USF Student Branch. We have built a large interest with the students and they are eager to pursue our industry. We have made it our mission this year to try and bring ASHRAE research money to USF. Let's give them some experience now that sustains their enthusiasm for HVAC after graduation. These students are our future employees!

Please make your contributions either by check 'Payable to ASHRAE RP' and turn them in to me or if you prefer you can make online donations at:
www.ashrae.org/contribute

If you make a donation online, please forward me a copy of the emailed invoice so I can ensure that proper credit is given. I can be contacted at:
icrimm@stanweaver.com

So far we are at 53.4% of goal. Deadline is June 30, 2016. Thanks to every investor so far, see below:

ASHRAE USF Student Branch

Submitted by Chris Martinez

		 <p>President: Rajeev Kamal</p>	 <p>Vice President: Ilya Makushin</p>
 <p>PR Director: Slade Fernandes</p>	 <p>Secretary: Francesca Moloney</p>	 <p>Treasurer: Tasha Williams</p>	 <p>Event Co.: Kat Mckell</p>
 <p>Faculty Advisor: Dr. Yogi Goswami [1]</p>			

After a brief downtime, the USF Student Branch is operational once again thanks to efforts spearheaded by Rajeev Kamal (Student President) and Dr. Yogi Goswami (Faculty Advisor). Lead by their executive board (shown above), the student branch has already amassed more than 30 student members. Many of whom are also ASHRAE members thanks to FWC sponsorship. On November 16th the Student Branch hosted a classroom filled with attendees eager to listen to guest speaker Don Hermann discuss ASHRAE. Professional development was a focal point in both the presentation and student questions. Mr. Hermann did a terrific job providing an overview of the resources and precedence that accompany ASHRAE. The students were curious how they could get ahead in the workplace and “hit the ground running” after graduation. For this reason, professional members should recognize the large reservoir of eager, employable candidates within the student chapter. They represent an economic resource looking for internships and employment opportunities (temporary, part-time, full-time). Keep your eyes and ears open for more exciting news to come from this group.

ASHRAE 2016 Annual Shrimp Boil

Submitted by Mike Costello

The shrimp boil last month was a huge success and had another record attendance. Thanks to all who attended and volunteered. Also, special thanks to Peter Montana with the HVAC Insider for taken photos. You can download them here:
